"Wiley is a So-Called Liberator." Mr. Borthick thanked us very much for our assistance in locating the item.

4. [redacted] Advised John Buckley, in the office of Representative Dante R. Fascell, that our people had no information regarding [redacted] and supposed problems with the FAA other than the fact that several lines were being investigated due to accidents but that no violations had been filed. Mr. Buckley agreed that it might be well to hold any further inquiries particularly with FAA until such time as violations might be filed and to determine what action, if any, should be taken.

Advised Buckley that our people had interviewed [redacted] but that we probably will be unable to locate a spot for him. Buckley indicated [redacted] had received that impression from our interviewer and thanked us for our assistance.
